SAHABDEEN MOHAMMED DILSATH

Full Stack Developer | React.js, Next.js, PHP, MySQL, Java, REST APIs

Pottuvil-15, Sri Lanka | +94 76 870 0005 | Mohmdlsth1129@gmail.com

Portfolio: dilsath-portfolio.vercel.app | GitHub: github.com/Dilsath0512

PROFESSIONAL SUMMARY

Final-year Computing undergraduate and aspiring Full Stack Developer with hands-on experience delivering 5+ freelance web applications end-to-end, from database design and back-end logic to responsive front-end interfaces and deployment. Proficient in Java, JavaScript, React.js, Next.js, PHP, MySQL, SQL and REST APIs, with a strong grounding in object-oriented programming and modern web development practices. Experienced in integrating AI APIs (Google Gemini) and authentication (Firebase) into production web apps. Fast learner with a genuine passion for building clean, functional software.

TECHNICAL SKILLS

Languages: Java, JavaScript, PHP, SQL, HTML5, CSS3
Frameworks and Libraries: React.js, Next.js, Tailwind CSS
Backend and Databases: PHP, MySQL, REST APIs, Firebase Authentication, Database Design, Resend Email API
AI Integration: Google Gemini API, Structured JSON Output, AI-assisted Development Tools
Tools and Deployment: Git, GitHub, Vercel, Netlify, cPanel, Figma, Canva
Concepts: Object-Oriented Programming (OOP), Software Engineering, UI/UX Design, Problem Solving

WORK EXPERIENCE

Freelance Full Stack Developer | Feb 2024 - Present

Self-Employed, Sri Lanka

- Delivered 5+ full stack web applications end-to-end (planning, development, testing and deployment) using HTML5, CSS3, JavaScript, PHP, MySQL, React.js and Next.js
- Built responsive, user-friendly interfaces with React.js and Tailwind CSS, improving usability and client satisfaction across projects
- Designed and implemented database-driven systems for efficient, reliable data management
- Integrated REST APIs and AI services to connect application data and third-party services
- Deployed client websites to Netlify, Vercel and cPanel hosting
- Managed version control and collaborative workflows using Git and GitHub (github.com/Dilsath0512)
- Applied object-oriented programming and software engineering principles across academic and client projects

Freelance Graphic Designer | 2024 - Present

Self-Employed, Sri Lanka

- Designed logos, posters, banners, invitations and social media content for 10+ clients
- Created branding and digital marketing assets tailored to each client's identity and target audience
- Delivered projects on time while managing multiple client requirements simultaneously

PROJECTS

StudyBuddy AI - AI Study Companion and Notes Summarizer

Live: https://studybuddy-ai-eosin.vercel.app/

- Built an AI-powered web app that turns PDF, DOCX and TXT study material into structured summaries, key concepts and active-recall quizzes
- Developed with Next.js (App Router) and React 19, using the Google Gemini SDK with a model fallback cascade and structured JSON schema output
- Implemented user authentication with Firebase (Google OAuth and email/password)
- Processed uploaded documents in memory using pdf-parse and mammoth, with no permanent file storage
- Added multilingual support (English, Tamil and others), plain-text export of summaries, and progress, planner and history pages
- Deployed on Vercel

Lawyers For Minority Rights (LMR) - Legal Directory Platform (Freelance Client Project)

Live: https://slmc-lawyer.vercel.app/

- Built a multilingual (English, Tamil, Sinhala) legal directory and assistance website for a Sri Lankan legal organisation
- Implemented a searchable lawyer directory filtered by district, practice area and language, covering all 25 districts
- Created a lawyer registration form with a profile preview, and legal-aid inquiry forms for fundamental rights, land, family (MMDA) and civil matters
- Included privacy policy and legal disclaimer sections for data protection and user trust
- Deployed on Vercel

Colombo Associates - Corporate Law Firm Website (Freelance Client Project)
Live: https://colomboassociates.com

- Designed, built and deployed a responsive multi-page corporate website for a Sri Lankan law firm using HTML5, CSS3 and JavaScript, covering 15 practice areas, an international desk, insights, careers and contact pages
- Built a team profiles page with 7 lawyer profiles, official portraits, qualifications and interactive role filter tabs
- Implemented contact and careers inquiry forms with PHP handlers and the Resend API, delivering formatted HTML email briefs to the firm's inbox from an authenticated domain (SPF and DKIM)
- Deployed on cPanel hosting with a custom domain, HTTPS enforcement through .htaccess rewrite rules, Gzip compression and static asset caching
- Delivered a handover report with architecture details, maintenance instructions and a Phase 2 roadmap, with source code managed in Git and GitHub

Learning Management System (LMS) - Final Year Academic Project

- Developed a web-based Learning Management System using PHP, MySQL, HTML5, CSS3 and JavaScript
- Implemented student, lecturer, module, timetable and academic management features with database-driven functionality
- Designed responsive interfaces applying core software engineering and problem-solving principles

Solace Villa - Luxury Villa Booking Website (Freelance Client Project)
Live: https://solacefamliyvilla.netlify.app

- Built and deployed a luxury villa booking website for a freelance client using React.js and Tailwind CSS
- Hosted on Netlify

EDUCATION

Bachelor of Science (Hons), Computing | Arden University | Final Year (Currently Pursuing)
International Higher Diploma, Computing | Buckinghamshire New University | Completed May 2026
G.C.E. Advanced Level (A/L) Examination | 2023
G.C.E. Ordinary Level (O/L) Examination | 2018

CERTIFICATIONS

- Certified LLM Security Professional (CLLMSP), Red Team Leaders | Jun 2026
- Certified API Hacking Junior (CAPIJ) | May 2026
- Additional certifications in cybersecurity and application security, reflecting a broader interest in secure software development

LANGUAGES

English (Professional Working Proficiency) | Tamil (Native) | Sinhala (Basic)
